# CHRISTMAS COMES BUT ONCE A YEAR

It doesn't seem a year ago that I was writing the foreword for last years Christmas Gift Guide, maybe it is a sign of getting older but this year has flown!

As much as the year has gone quick we are still just as excited about Christmas. Every year I say to myself I don't need any more Christmas decorations and won't be buying any, however within weeks of visiting the shops, I fall in love with some that I have to have, so more and more get added to the collection.

I like to have the Christmas tree up for the 1st December as in previous years I have left it later, it then feels as quick as you have decorated everything you are putting it all away. Because I really go to town with decorating the house and tree, I feel I want to have the time to enjoy my efforts!

The most time consuming part is probably the fireplaces and the tree. I make garlands from the bottom of the Christmas tree, I cut off and nail them onto the wood above the fireplace then wire decorations and dried fruit into them. The Christmas tree is covered in decorations that have been collected, made or been given over the years. It really does feel like Christmas has come early when you open the boxes and all these gorgeous decorations come falling out and an explosion of memories each one holds. I probably spend too long looking at them which is why the decorating takes me a whole weekend to complete, and that's not counting the studio Christmas tree! For the Fuschia Designs tree - anything goes...the brighter and more wacky the better and a complete contrast to our rustic home decor theme.

The Christmas Guide is full of lots of ideas for you to gift your loved ones this year. From stocking fillers to more considered purchases, we have something for everyone. All our products are manufactured in the England and made with love, so when you buy from us you are helping support British manufacturing. Our products are designed to last, so if you are looking for practical and gifts that will be used over and over again then look no further.

**Thank you for your support and wishing you a very happy and healthy Christmas and all the best for 2024.**
